Section 2: The Teaching Experience

2. What was good about this placement?

Had many opportunities to see our own patients and build confidence

Lots of clinics for students = more experience in seeing patients. Supervising doctors were all friendly. Well-organised.

3. Was there something you thought should be changed to improve it? If so, what would you suggest.

Met my expectations...but if I am to nitpick, maybe try to use all our clinic slots fully? There were a few times that I had 2 out of 5 slots unused, and once I came in to see just one patient (although 2 patients were booked but one DNA-ed).

4. Can you give any examples of good practice in teaching?

Dr Naqvi and Dr Patel spent more time with me when they were supervising, teaching and pointing out areas I could improve in, rather than just saying 'good history and thorough'. However, they may have had more time that day to do so, so it is unfair to say other doctors did not spend enough time with me - in fact they all offered to discuss cases after the clinic session, which was good.
