Section 2: The Teaching Experience

2. What was good about this placement?

A lovely welcoming team. The intro week was very well structured. The GPs were keen to teach and very enthusiastic. I felt there was just the right level of independence and supervision. The clinics ran very well. 30 minutes I felt was the right amount of time to spend with the patients. The tutorial sessions with Dr Palmar were very interesting and the right level for us.

We had lots of opportunities to run our own clinics which was a great experience

3. Was there something you thought should be changed to improve it? If so, what would you suggest.

More consistent feedback from individual GPs would be appreciated, some great at giving feedback and some didn't seem interested in giving feedback.

Not all GPs gave feedback on clinics. If possible this would be useful.

4. Can you give any examples of good practice in teaching?

Dr Naqvi and Dr Deepika were both particularly excellent supervisors. It was very useful as they would wait to hear my differentials and management plan and gave constructive feedback.

It was more helpful when GPs would ask as for differentials and management plans rather than 'taking over'. Some were great at this for example Dr Bhachu and Dr Linvell and Dr Naqvi

Too short:		0.0%	0
Just right:	████████████████████	50.0%	1
Too long:	████████████████████	50.0%	1

16. Any further comments about the WIC placement			
I felt the time at the OOH was too long for the learning experience achieved. I saw a limited number of patients and one point there was no patients for 1 hour. I would really have liked to do home visits but this was not an option. I was not really encouraged to participate in the consultations.
