Section 2: The Teaching Experience

2. What was good about this placement?

Organised, with a timetable, so I knew what I would be doing. Staff at the practice were very friendly and welcoming.

Well organised and friendly practice. All of the staff were very keen to teach and to let us clerk patients.

3. What did you find useful about this teaching?

The headache teaching was useful, and the introduction to CBT with Daniela.

Tutorials with the GPs. Opportunity to clerk patients in a separate consultation room.

4. Was there something you thought should be changed to improve it? If so, what would you suggest.

Although it is impossible to know which patients are going to attend the GP surgery, calling patients in or arranging home visits to patients with conditions relevant to the module would have been useful.

Another teaching session on management of common psychiatric conditions in primary care e.g depression and anxiety would have been useful.

5. Can you give any examples of good practice in teaching?

discussion of specific patient cases after we had seen them

Discussions about a patient and their management once that patient had been seen.
