The Teaching Experience

2 What was good about this placement?

Showing all 2 responses	
The organisation and experience of the whole placement was fantastic. It followed a logical progression from initial shadowing with different members of the team to a gradual transition of doing student-led clinics. This was good because it allowed me to meet everyone on the team and understand what was on offer at the practice before starting my own student-led clinics. This made life much easier and the team were always willing to help me when required. I really felt like part of the team and truly learnt what it was like to be a 'doctor'. Overall, the best placement I have had throughout my time at medical school.	220865-220858-17834449
Really enjoyed this placement, had lots of tutorials and running our own clinics was very useful	220865-220858-17855146

The out-of-hours placement at Whipps Cross Hospital was a disappointment. I appreciate it is a busy environment but when I got there, I was told to shadow the receptionists for the evening. Not only did this not allow me any opportunities for clinical contact/experience, I also found it pretty demeaning for someone at my stage of training. I have far better things to do with my evenings (e.g. revision for finals, etc.) than to sit around watching receptionists register patients. I subsequently left after 30 minutes.	220865-220858-17834449

4 Can you give any examples of good practice in teaching?

Every week, I had a tutorial with a different member of the team which was focussed and varied. I also presented at 2 lunchtime teaching sessions for the whole practice which everyone fully engaged with. Finally, I was able to shadow one of the GPs at his specialist community dermatology clinic for a morning. I particularly enjoyed the variety in the teaching.

Tutorials given regularly and presented in lunch time meetings. Drs supervising clinics often gave a lot of advice and teaching points during clinic

Overall, a very enjoyable placement. A special thank you to Dr Parmar, Dr Naqvi, Dr Patel and Darshan Kaur and the rest of the staff at the practice for their time, commitment and organisation of the placement and for making it such a wonderful experience.	220865-220858-17834449
